

# Engineered Racking for Mortuary Performance

Queensland  
Government

Health Infrastructure Queensland

## MISSION

To deliver safe, hygienic mortuary racking that expanded capacity and improved workflow.

## OUTCOME

Emery supplied modular stainless-steel racking for refrigerated and freezer areas, boosting capacity, improving safety and ensuring full compatibility with existing trays.

## IMPACT

BEFORE	AFTER
Growing need for expanded mortuary capacity	Modular racks built for scalability
High-risk environments requiring hygienic materials	Stronger infection control and safety
Legacy trays needing compatible infrastructure	Increased capacity and faster reconfiguration

## SERVICES/SKILLS

Emery provided end-to-end design prototyping, engineering and fabrication, supported by ISO-certified quality management, third-party load testing, on-site installation, commissioning, documentation and staff familiarisation.

**Fabrication Excellence · Engineering Precision · Installation Support · Standards Compliance**

**Capacity, safety, reliability**
